

Chapter 6

Title IV Reporting, NSLDS, Audit, Program Review, and Guaranty Agency Procedures

Summary

This chapter begins with a discussion of reports that are unique to non-campus-based Title IV programs, then addresses campus-based programs in an overview of the Fiscal Operations Report and Application to Participate (FISAP). Other reports, audits, and program reviews are also covered in this chapter.

Key Terms

A-133 Audit	Financial Aid Transcript (FAT)
Accounts Receivable Management Group (ARMG)	Financial Services (FS)
Acknowledgement	Fiscal Operations Report and Application to Participate (FISAP)
<i>Audit Guide</i>	Grant Administration and Payment System (GAPS)
batch	Level of Expenditure (LOE)
closed award	Multiple Reporting Record (MRR)
compliance audit	National Student Loan Data System (NSLDS)
Corrective Action Plan (CAP)	Office of Management and Budget (OMB)
Direct Loan School Account Statement (DLSAS)	open award
Direct Loan Servicing Center (DLSC)	Potential Overpayment Project (POP)
Direct Loan Origination Center (LOC)	Recipient Financial Management System (RFMS)
EDEExpress	reconciliation
Electronic Data Exchange (EDE)	Regional Inspector General for Audit (RIGA)
Electronic Statement of Account (ESOA)	Single Audit Act
federal audit	Student Status Confirmation Report (SSCR)
Federal Capital Contribution (FCC)	Year-to-Date Summary
FEDWIRE	
Final Audit Determination Letter (FADL)	
Final Program Review Determination (FPRD) letter

***Schools can send in any number of origination records. Also, schools can send in their origination records as early as May 25, 1999.**

6.1 Federal Pell Grant Reporting

A school's financial aid office is responsible for determining student eligibility for Federal Pell Grants, awarding Federal Pell Grant funds, and authorizing the school's business office to disburse the funds to students or credit students' accounts. Once Federal Pell Grant funds have been disbursed or credited to a student's account, a school is responsible for reporting the student payment information to ED. This may be a function of a school's financial aid office *or* business office *or* both offices.

The school reports student payment information to ED through the Recipient Financial Management System (RFMS). RFMS enables ED to track a school's need for Federal Pell Grant funds and adjust the school's funding authorization. The system also provides documentation that allows the school to reconcile records of expenditures reported to ED with the school's records of payments made to students.

Recipient Financial Management System (RFMS)

Beginning July 1, 1999, schools will use RFMS to transmit Federal Pell Grant data. There are four categories of data that an institution sends to RFMS:

1. origination record
2. disbursement record
3. special disbursement record
4. data request record

*Origination records:**

- include demographic data about the school and, if applicable, its branches
- report to RFMS on expected award information about each student who may receive a Federal Pell Grant,
- contain the same information as the payment record,
- must be created before a disbursement can be made,
- may be sent with the initial disbursement record, and
- verify a student's eligibility for a specific annual award amount.

***Schools cannot send in their disbursement records before July 1, 1999. However, if schools send in their disbursement records more than 30 days after the actual disbursement, they will receive a warning indicating they have committed a Federal Pell Grant violation.**

Origination records are not used to obligate funds or post transactions to the school's account.

*Disbursement records:**

- report a disbursement, including the actual amount and date, or expected disbursement for each student,
- can be sent to RFMS up to 30 days before and 30 days after the actual disbursement,
 - if a school sends in its disbursement record more than 30 days after the actual disbursement, the school will receive a warning for a Federal Pell Grant violation
- are submitted with or after the origination record, and
- drive the school's funding level in GAPS.

Special disbursement records:

- are required for all institutions that ED places on reimbursement,
- may be submitted by any institution to send period-specific data, and
- contain information necessary to calculate the payment for the specific payment period to which the disbursement applies.

Data request records are used to request:

- acknowledgment batch replacements,
- the Electronic Statement of Account (ESOA), and
- year-to-date information.

Schools also use data request records to retrieve multiple-reporting information for students who have awards originated at more than one institution.

Acknowledgement

After ED processes any RFMS record (including an origination record, disbursement record, special disbursement record, and data request), schools receive an acknowledgement within 6 to 8 hours and have funds available to draw down within 24 to 36 hours. The acknowledgement identifies each record the school sent to ED in one of the following categories:

- *Accepted*—The school should keep these records in its files. The school does not need to resubmit them unless the award year data change.
- *Corrected*—The information is incomplete, so RFMS makes certain corrections to accept the data. The school must review the information and resubmit it if RFMS's corrections are inaccurate.
- *Rejected*—The data are inconsistent or inaccurate and cannot be accepted for payment. These records must be corrected and resubmitted. The rejected category includes duplicates. These records are duplicates of previously accepted records by ED. The school should keep these records in its files. Duplicates should not be resubmitted unless the award year data change.

Electronic Letters

RFMS can send electronic letters to schools as needed. It sends electronic letters in an ASCII text format. For institutions not participating in Electronic Data Exchange (EDE), the letters are available via the new Internet Web Institution Access site that is replacing the Institution Access System (IAS). To improve access to RFMS, institutions will be able to submit data records via the Internet. This Internet site will be available 24 hours a day, 7 days a week.

Requesting Data

RFMS provides schools with the following tools to help manage their Federal Pell Grant database:

- Electronic Statement of Account,
- Multiple Reporting Record, and
- Year-to-Date Data.

Electronic Statement of Account (ESOA)

A school's authorization is the maximum amount of Federal Pell Grant funds it may draw down from the Grant Administration and Payment System (GAPS) to disburse to students. ED reports authorizations to schools in an electronic format called the Electronic Statement of Account (ESOA).

Schools receive an ESOA immediately after GAPS processes the authorization. The ESOA includes a summary with information such as

**Reference:**

- *1999-2000 Recipient Financial Management System Training Participant's Guide*

**Reference:**

- 1999-2000 Recipient Financial Management System Training Participant's Guide

***Although RFMS will potentially reduce the overpayment problem, you can still have concurrent enrollment of the same student or two schools submitting a disbursement record for the same student at the same time.**

current authorization amounts and year-to-date disbursement amounts. It also includes a status of the account when the last ESOA was sent to the school as well as a detail record that lists each transaction processed between RFMS and GAPS.

Multiple Reporting Record (MRR)

Once a disbursement record is sent, an MRR is sent automatically if a Potential Overpayment Project (POP) or concurrent enrollment occurs.*

- *POP* occurs when two or more schools send a disbursement record for a student and the percentage of the student's Federal Pell Grant eligibility used is greater than 100 percent.
- *Concurrent enrollment* occurs when two or more schools send in origination records for the same student with enrollment dates within 30 days of each other.

Schools can also request an MRR from RFMS to obtain information about any other schools that may have submitted origination or disbursement records for their students. Schools can request an MRR six ways:

1. *OA*–RFMS provides the school with information about all origination records it has received where the original Social Security number (SSN) and name code match the origination records the school submitted. *OA* can also be used to find out if other schools have submitted origination records for the school's students.
2. *OS*–RFMS returns information about other schools that submitted origination records for selected students. Schools can use this option for transfer students.
3. *OI*–RFMS returns information about all students originated at selected schools. Schools might use this option to specify all records from a school in its area that many of its students transfer to.
4. *DA*–RFMS provides the school with information about all the disbursement records it has received where the original SSN and name code match the disbursement records the school submitted.
5. *DS*–RFMS returns information about other schools that have submitted disbursement records for selected students.
6. *DI*–RFMS returns information about all students who had disbursement records submitted at selected schools.

Reference:

- *1999-2000 Recipient Financial Management System Training Participant's Guide*

Year-to-Date Data

The Year-to-Date (YTD) or other RFMS-compatible software record replaces the Student Payment Summary (SPS). Using EDExpress, YTD data provide summary statistics for:

- all recipients,
- all origination records,
- originations accepted,
- originations accepted with corrections,
- all disbursement records,
- disbursements accepted,
- disbursement accepted with corrections, *and*
- counts for rejects and warning codes.

An institution can request YTD records for all of the activity posted to the RFMS database up to the present. RFMS creates a set of records for every student the institution has reported for the award year. Each student has a year-to-date origination record and year-to-date disbursement record for each disbursement accepted.

Institutions may request YTD records for all students or selected students that are specified in the data request record.

Administrative Cost Allowance (ACA)

A school participating in the Federal Pell Grant Program is entitled to an administrative cost allowance (ACA) to help offset the costs of administering the program. ED notifies the school of the amount of its ACA by RFMS electronic letter several times a year and pays the school automatically by EFT.

A school receives \$5 for each of its reported Pell recipients. Students who later withdraw are included in the number of recipients as well as transfer students. Students whose payment data are rejected by ED are not included.

The ACA must be used only to help pay the costs of administering the Federal Pell Grant Program and the campus-based programs. If a school enrolls a significant number of less-than-full-time or independent students, the school is required to use a reasonable portion of the ACA to ensure that financial aid services are available to those students.

6.2 William D. Ford Federal Direct Loan Program Reporting

Schools participating in the William D. Ford Federal Direct Loan Program (Direct Loan Program) perform a number of reporting functions for the program. Because Direct Loans are disbursed directly to students through their schools, schools must report disbursements and other information on a regular basis. Schools must also report the enrollment status of Direct Loan student borrowers using the Student Status Confirmation Report (SSCR). SSCR will be discussed in detail in the section on the National Student Loan Data System (NSLDS).

Direct Loan schools send electronic reports and other communications directly to the Direct Loan Origination Center (LOC).

With the exception of promissory notes and Direct PLUS Loan combined applications/promissory notes (both of which are paper documents), all reports transmitted by schools are electronically formatted records. Many schools participating in the Direct Loan Program use PC-based EDEExpress software to administer the program; others operate on a “mainframe-to-mainframe” basis with the LOC.

Up to the point that Direct Loans are disbursed, most of a school’s communication with the LOC may be handled by the school’s financial aid office. Reporting functions, such as monthly reconciliation and exit counseling reporting, occur after loan disbursement and may be handled by a school office other than the financial aid office, such as the business office.

Monthly Reconciliation

Schools participating in the Direct Loan Program must reconcile funds on a monthly basis. The reconciliation process involves comparing the school’s internal records with the cash balance on the school’s monthly Direct Loan School Account Statement (DLSAS). The DLSAS calculates a school’s cash balance by adding and subtracting the following cash records:

- drawdowns (also called cash receipts or advances),
- returns of excess cash,
- disbursements to borrowers, and
- adjustments to disbursements.

Reference:

- *Direct Loan School Guide*
- DLB-97-49

The LOC is responsible for initiating the reconciliation process with the school by transmitting the DLSAS electronic file to schools on a monthly basis. However, it is the school's responsibility to review the DLSAS on a monthly basis and resolve any discrepancies with the LOC as quickly as possible.

In effect, the school is responsible for reconciling. Any items not reconciled with the LOC and DLSAS by the end of the following month will be included on the subsequent DLSAS for further attempts at reconciliation.

There may be items that are not reconciled before the next month's reconciliation begins. These unreconciled items will be included in the next reconciliation, and all of these items should reconcile in the next month's reconciliation. This is similar to a bank statement in that most records will reconcile, but because of timing differences or rejections, not everything is reconciled the first time.

The DLSAS file that the LOC creates and exports to schools contains three files:

- the cash summary record,
- the cash detail record, and
- the loan detail record.

Cash Summary Record

The cash summary for each month begins with the ending cash balance from the previous month. At the beginning of each academic year, the beginning cash balance should be zero.

The cash summary summarizes:

- drawdowns for the month,
- excess cash received by the LOC for the month,
- all disbursements acknowledged and booked for the month,
- disbursements and adjustments,
- booked loans, *and*
- accepted disbursements for unbooked loans.

A loan is "booked" when

- the LOC has received and accepted a loan origination record;

- the LOC has accepted a signed promissory note from the borrower;
and
- the disbursement record has been transmitted to and accepted by the LOC.

Cash Detail Record

The cash detail record provides a detailed listing of all drawdowns and excess cash by transaction. Information in the cash detail section should be compared with the school's internal records and bank statements. This information is obtained from GAPS for drawdowns and from the LOC for excess cash returned.

Loan Detail Record

The loan detail record is optional. For schools that choose to receive a loan detail record, the DLSAS file includes booked disbursement transactions acknowledged during the month.

Schools that do not want a loan detail record as part of the DLSAS file must contact their LOC customer service representative to have the record omitted. However, a school can request a loan detail record for a specific month even if it does not want a loan detail record included regularly within its DLSAS file.

After receiving a DLSAS from the LOC, schools are required to review and compare the monthly DLSAS to their internal records to ensure the accuracy of the data on both the school's system and the LOC's system. Schools must reconcile the ending cash balance reflected in the monthly DLSAS cash summary with the cash balance reflected in schools' internal records.

If there are unreconciled records, the school must review each unreconciled record and, with the help of the LOC and/or their Direct Loan Client Account Manager (CAM), determine why it did not reconcile. The next section provides guidance in reconciling records.

Some common reasons that loan detail records fail to reconcile are:

- the loan was never "booked," meaning that the LOC did not receive or reject one or more of the following—the promissory note, the origination record, or the disbursement record, *or*
- the disbursement record or adjustment record was never sent to the LOC.

Reasons for cash detail records failing to reconcile are missing or mismatched cash receipts or excess cash records from either the school or LOC.

After the school has corrected the rejected records, the school should transmit another (corrected) reconciliation file for the same reconciliation period to the LOC. The LOC repeats the process of comparing the school's records with its records. This process continues until all records are reconciled.

Tools to Help With Reconciliation

If a school is having problems reconciling records, it can use:

- school system reports,
- the loan detail exception file (#L Batch) data compare option, and
- the Compare Program.

School System Reports

There are five school systems reports that can be used to help schools reconcile:

1. booked status report
2. cash management report
3. loans with an origination not in accepted ("A") status
4. loans with a promissory note not in "A" status
5. loans with a disbursement not in "A" status

Loan Detail Exception File

The loan detail exception file (#L Batch) data compare option exports loan data from the school's system. The data exported to the LOC are booked data for a specified month and cumulative unbooked data. The LOC returns a side-by-side comparison report that compares the LOC data with the school data line by line.

The Compare Program

Direct Loan Client Account Managers (CAMs) help schools with reconciliation using the Compare Program. The Compare Program

electronically compares a school's 732-LOS Detail Report (732) against its EDExpress database. The Compare Program shows if a school has:

- unbooked loans on the 732,
- loan records on the school's system but no corresponding record on the 732,
- loan records on the 732 but no corresponding records on the school's system,
- corresponding loan records but net disbursement amounts that don't match, and
- any cash records that can't match because of different amounts, missing records, or dates outside a tolerance window.

Schools with questions about reconciliation can call the LOC's Direct Loan Customer Services at 1-800-848-0978 for assistance.

Exit Counseling Reporting

During exit counseling, Direct Loan borrowers who withdraw, graduate, or drop below half-time enrollment are required to update information in a school's records concerning:

- name,
- address,
- Social Security number,
- references,
- driver's license number and state of issuance (if the borrower has a license), and
- name and address of expected employer (if known).

ED has advised schools to retain the information in their files for future use in the event that they need to find borrowers who are late with payments or who default.

*The same reporting on a regular basis via NSLDS applies to Federal Direct Loan schools.

6.3 Federal Family Education Loan (FFEL) Program Reporting

Schools are required to report enrollment and other information about Federal Family Education Loan (FFEL) Program student borrowers on a regular basis. This is done by completing a Student Status Confirmation Report (SSCR). SSCR will be discussed in detail in the next section, National Student Loan Data System (NSLDS).*

Exit Counseling Reporting

Shortly before FFEL Program student borrowers withdraw, graduate, or drop below half-time enrollment, they are required to update information in a school's records concerning:

- name,
- address,
- Social Security number,
- references,
- driver's license number and state of issuance (if the borrower has a license), and
- name and address of expected employer (if known).

Schools are required to report this updated exit information to the student's guaranty agency within 60 days of receiving it.

6.4 National Student Loan Data System (NSLDS)

Reference:

- *The Paperless Link NSLDS: Quick Reference Guide*, October 1998

The National Student Loan Data System (NSLDS) is the first national database for Title IV loan and grant programs. NSLDS contains data on recipients from:

- the Federal Family Education Loan (FFEL) Program,
- the William D. Ford Federal Direct Loan Program,
- the Federal Perkins Loan Program (including National Direct, National Defense, and Income Contingent Loans),

- the Federal Pell Grant Program, and
- the Federal Supplemental Educational Opportunity Grant (FSEOG) Program.

Data Providers

NSLDS receives data from multiple sources, both internal and external to ED, and it maintains those data in several integrated databases. The data are available to many different system users for administration, research support, policy analysis, and other management purposes.

ED's Internal Data Sources

ED's internal data sources include the Central Processing System (CPS), ED's Debt Collection Service (DCS), the Direct Loan Servicing Center (DLSC), the Postsecondary Education Participant System (PEPS), and the Recipient Financial Management System (RFMS).

- *CPS*—performs the eligibility prescreening function that identifies recipients who are potentially ineligible for additional Title IV aid.
- *DCS*—provides updates on defaulted Federally Insured Student Loans (FISLs), Federal Perkins Loans, and FFEL Program loans assigned to ED for collection.
- *LSC*—supplies NSLDS with monthly data on Direct Loans.
- *PEPS*—provides a means to convert Federal Pell Grant institution codes, FFEL Program school IDs, and campus-based school codes to OPE-IDs.
- *RFMS*—provides NSLDS with Federal Pell Grant payment information on a weekly basis.

ED's External Data Sources

ED's external data sources include guaranty agencies, lenders, schools, and third-party servicers.

- *Guaranty Agencies*—Guaranty agencies provide data monthly to NSLDS on FFEL Program loans held by lenders or by the guaranty agencies themselves. While agencies submit data monthly, outstanding principal balances may be up to four months old since lenders might only report balances to their guaranty agency on a quarterly basis.

- *Lenders*—Lenders or their servicers are required to provide information to their affiliated guaranty agencies (for subsequent submission to NSLDS) on loan sales, deferments, disbursements, refunds, cancellations, interest rates, loan status, and preclaims assistance requests.
- *Schools*—Schools or their third-party servicers are required to provide:
 - *Student Status Confirmation Report (SSCR)*—enrollment information to NSLDS via the SSCR;
 - *Overpayment information*—Pell, FSEOG, and Federal Perkins Loan overpayment information to NSLDS; and
 - *Federal Perkins Loans data*—accurate data every 30 days to NSLDS on Federal Perkins Loans, National Direct Student Loans, and National Defense Student Loans.

NSLDS provides a flexible, accessible, and comprehensive database of Title IV information that can be used for a wide range of research and reporting purposes. The database is also secure with controlled access to both ED and external users.

While NSLDS is used primarily as an information resource for schools, its existence changed reporting procedures for the SSCR, overpayments, and the Federal Perkins Loan Program.

Student Status Confirmation Report (SSCR)

Since January 1, 1998, federal regulations have required all schools to have online access to NSLDS whether the school uses a third-party servicer or mainframe to mainframe connectivity for the exchange of SSCR files. The primary reason for this requirement is to ensure that schools have access to the NSLDS on-line Financial Aid Transcript (FAT) screens.

- If the school uses a third-party servicer to perform the SSCR function on its behalf, the school must indicate the servicer on the participation agreement.
- If the school hired a third-party servicer to perform its SSCR function, the third-party servicer is the destination point for the exchange of SSCR data—the data will not be sent to the school.

The Higher Education Act of 1965, as amended (HEA), requires schools to confirm and report the enrollment status of students who receive federal loans.

Reference:

- *SSCR User's Guide*
- DCL-GEN-98-22
- DCL-GEN-97-9
- DCL-GEN-96-5
- DCL-GEN-96-17

Reference:

- 34 CFR 682.610(c)
- 34 CFR 685.309(b)

- Schools comply with the federal requirement to update and provide current enrollment information through the SSCR process.
- The SSCR process is for Direct Loan Program loans and FFEL Program loans.

The SSCR process plays a critical role in effectively administering Title IV loan programs. It is the primary means of verifying student loan privileges and the federal government's monetary obligations.

Using the SSCR process, schools can update enrollment information in NSLDS via batch request or online.

- *Batch Method*—This method allows a school to receive a single electronic SSCR file, fully process it in its computing environment, and transmit the SSCR data back to NSLDS—again as a single file.
- *Online Method*—This method allows a school to update the enrollment data directly on the screens in NSLDS using 3270 Emulator (previously NetConnect).

In some circumstances, there are advantages to using the online method:

- If a school needs to correct a few student records on a previously submitted SSCR or make an ad hoc report for a change in student status, online updating is appropriate.
- The SSCR software module allows a school to update and build a submittal file on its personal computer (PC) off-line (that is, without being connected to NSLDS) and transmit it using EDconnect 32-bit.
 - For more information about the SSCR software, call CPS Customer Service at 1-800-330-5947.
 - To order the 32-bit SSCR software, the number to call is 1-800-615-1189.

There are three files associated with the SSCR process:

1. SSCR Roster Files
2. SSCR Submittal Files
3. SSCR Error Notification Files

***This status is a recent addition to the roster. It was requested by schools and announced by NSLDS in March 1999.**

SSCR Roster Files

The SSCR Roster File sent to a school or its third-party servicer contains a list of borrowers who are recorded in the NSLDS database as being enrolled at that school or who have withdrawn in the last six months; the students will have one of these six statuses:

1. F—full time
2. G—graduated*
3. H—half time
4. L—less than half time
5. A—authorized leave of absence
6. W—withdrawn

Students reported to NSLDS with a “G” or “W” enrollment status remain on the roster 180 days from the reported date of withdrawal.

A school sets its own schedule for receiving SSCR Roster Files, using the online screens. The schedule must meet the following ED requirements:

- In a 12-month period, a school must request a minimum of at least two SSCRs and may request a maximum of up to six SSCRs.
- A school may not schedule SSCR rosters for successive months.
- If the school has term-based programs, at least one SSCR must be requested each regular term.
- If a school schedules fewer than four SSCRs, the SSCRs must be scheduled at least four months apart.
- A school may change its SSCR schedule at any time, as long as ED’s requirements are met.
 - If a school wants to change its schedule for receiving SSCRs, it should make the change at least ten days before the next scheduled delivery of a roster.

If a school does not establish its own schedule, NSLDS will send rosters every other month during the academic year.

SSCR Submittal Files

Within 30 calendar days of a school receiving the SSCR Roster File, the school must review the data, make the changes, and send in the SSCR Submittal File. NSLDS retrieves the updated file from the school's electronic mailbox.

Schools that don't comply with the 30-day requirement may be subject to certain actions by ED, such as fines or limitation, suspension, or termination.

ED sends "overdue letters" to schools if they have not complied. These letters remind schools of their SSCR obligations and ED's enforcement options.

Third-party servicers do not have the same SSCR responsibilities as schools. Schools may have a business relationship with any third-party servicer. However, the school is still responsible for the performance of the third-party servicer in handling SSCR responsibilities.

SSCR Error Notification Files

After NSLDS receives and processes the data in the school's SSCR Submittal File, it returns an SSCR Error Notification File to the school. This file documents the school's compliance with SSCR requirements.

NSLDS will always generate an SSCR Error Notification File, even if it is to report that there are no errors in a school's SSCR Submittal File.

- If errors are noted, the school has 10 calendar days to respond to the error report and correct the errors.
- The notification file will continue to be sent to a school until the errors are corrected or the next cycle comes up.
- All unresolved errors appear in the next SSCR cycle and are monitored by ED.
- If the file contains no errors, the school does not need to respond. However, the school should keep the files as proof that the institution successfully completed the SSCR requirement.
- The school can correct errors online, even if the initial SSCR Submittal File was returned using the batch process.

**Reference:**

- HEA, Section 484(a)(3)
- 34 CFR 668.32(g)
- DCL-GEN-98-14
- DCL-GEN-98-22

Overpayments

The HEA provides that a student is not eligible to receive Title IV funds if he or she owes an overpayment on Title IV aid. Schools must notify NSLDS about students who currently owe an overpayment on a Federal Pell Grant, FSEOG, or Federal Perkins Loan.

Schools must report overpayment information for:

- overpayments that haven't been paid,
- overpayments that haven't been resolved, and
- overpayments where the student has made satisfactory payment arrangements.

Once a school notifies NSLDS about a student's overpayment, the overpayment information will appear on NSLDS's financial aid transcript (FAT) screens and overpayment screens; thus allowing other schools to view this information. A process called post-screening results in an exchange of information between the Central Processing System (CPS) and NSLDS, which generates new Institutional Student Information Records (ISIRs) to schools and new Student Aid Reports (SARs) to students if the student's eligibility changes due to overpayment information added to the record.

Anytime an ISIR or SAR that shows an overpayment is received by a school, the school must deny Title IV aid to that student until the overpayment has been resolved.

Schools are required to report new overpayments and changes to previously submitted overpayment information no later than 30 days after the school becomes aware of the overpayment or of the needed change.

Overpayments previously reported by schools to ED's Debt Collection Service (DCS) are entered into NSLDS by ED. Therefore, schools do not need to enter them into NSLDS.

Reporting overpayment information to NSLDS is separate and distinct from the requirement that institutions report unsuccessfully collected overpayments to ED so that DCS can collect the overpayment. In the future, ED plans to develop a process that will combine both requirements.

Federal Perkins Loan

Beginning July 1, 1999, all schools must report Federal Perkins Loan data electronically over the Internet.

**Reference:**

- *Electronic Aid Office Training Guide*
- DCL-GEN-98-22

Reference:

- *Electronic Aid Office Training Guide*
- DCL-GEN-98-22

Schools or their third-party servicers must report Federal Perkins Loan data to NSLDS monthly. The school or third-party servicer makes an initial submission of data to NSLDS that includes:

- all active loans in its Federal Perkins portfolio, regardless of status (except those permanently assigned to ED) and
- all Federal Perkins Loans closed on or after October 1, 1989.

After initial submission of Federal Perkins Loan data, schools or their third-party servicers are required to report only data for new loans and data changes for active loans. All data submitted to NSLDS must be as complete and correct as possible and submitted according to a pre-determined schedule established by ED.

The process for on-going submissions of Federal Perkins Loan data includes:

- extracting specific data elements from each qualified loan record in the school's database;
- formatting the data in a standard manner;
- editing and verifying the data; and
- creating a submission file of the data to send to NSLDS.

6.5 The Fiscal Operations Report and Application to Participate (FISAP)

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*
- DCL-CB-99-2

The electronic Fiscal Operations Report and Application to Participate (FISAP) is:

- an application a school completes to receive funds from one or more Title IV campus-based programs for the upcoming award year *and*
- an annual report of financial and enrollment activity for the previous award year.

The business office, financial aid office, and registrar office should work closely together to gather information needed to complete the FISAP. The offices involved with completing the FISAP may vary from school to school. The information on the FISAP must be verified before submitting it to ED.

Schools applying for campus-based funds for the first time will not have Title IV program expenditures to report for the previous award year.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

Reference:

- DCL-CB-99-3
- DCL-CB-99-6

***Schools do not have to send a new FISAP signature page during the FISAP edit process.**

However, these schools must still complete and file Part I, including the certifications, and Part II of the FISAP to request funds for the upcoming award year.

Beginning with the 2000-01 award year, schools will be required to submit their FISAPs to a campus-based program contractor via ED's Title IV Wide Area Network (TIV WAN) using the EDConnect (FISAP for Windows) software to transmit their FISAP data. The data will be processed and returned to the school's electronic mailbox.

- However, because TIV WAN is being redesigned to accommodate Internet traffic between Title IV customers and Title IV applications, TIV WAN is being renamed the Student Aid Internet Gateway (SAIG). TIV WAN will continue to be used until September 2001.

Schools must file a FISAP electronically no later than October 1 of each calendar year. Each annual FISAP reports information for the preceding award year that ended on June 30 of the current calendar year and requests funds for the following award year that begins on July 1 of the following calendar year. For example, when a school files a FISAP on October 1, 1999, it will report for the period from July 1, 1998 through June 30, 1999 (the previous award year) and apply for the period July 1, 2000 through June 30, 2001 (the upcoming award year).

ED distributes the FISAP cover letter, installation guide, and software to schools electronically no later than August 1 each year. ED provides the *FISAP Instructions Booklet* and *FISAP Technical Reference* via <http://ifap.ed.gov> and the *FISAP Desk Reference* via TIV WAN. All FISAP edits must be resolved or explained to ED's satisfaction before any Title IV funds are allocated. Schools should receive a final edit report from ED by November 15 of each calendar year; they must submit edit corrections by December 15.

Schools electronically receive tentative allocations of funds by February 1 and original allocations of funds by April 1 for the upcoming award year beginning July 1.

In addition to data submitted electronically, schools must mail signed, original copies of the FISAP signature page* and certification forms to ED. The certification forms, which are included in the FISAP package, cover anti-lobbying, debarment, and drug-free workplace requirements.

Completing the FISAP requires accurate, detailed accounting information. The process can be greatly simplified if a school designs its chart of accounts with the FISAP in mind. In addition, accurate, well-maintained student records are necessary to complete the FISAP properly.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

The FISAP software provides instructions and has edits to help users complete the information. The following discussion provides an overview of each section of the FISAP, focusing on issues of particular interest to school fiscal officers.

Part I: Identifying Information, Certifications, and Warning

All institutions must complete Part I.

Section A: Identifying Information

Section A of Part I gathers information about a school that ED uses to update its records. Section A requests the following information about the school:

- *Field 1a:* name and address of institution,
- *Field 1b:* mailing address (if different from official address),
- *Field 2a:* DUNS number,
- *Field 2b:* serial number,
- *Field 2c:* OPE ID number,
- *Fields 3.1- 3.3:* type of institution,
- *Fields 4.1- 4.7:* length and type of program,
- *Field 5:* additional locations.

Section B: Certifications and Warning

By signing Section B of Part I, the school certifies that the information submitted on the FISAP is true and accurate to the best knowledge of school officials signing the certification. It also warns certifying officials that the institution's FISAP is subject to audit and program review by ED and that providing false or misleading information on the FISAP may result in criminal penalties.

Fields 6 - 9 collect signatures, telephone numbers, and fax numbers of a school's chief executive officer (CEO), financial aid administrator (FAA), and chief fiscal officer (CFO). It also collects the financial aid administrator's email address. If a school uses a private financial aid consulting firm, and if individuals from that firm have signed the FISAP as the school's FAA or CFO, the firm's name and address must also be provided.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

Because Part I must contain original signatures, it must be returned to ED in paper form. Specific instructions for returning the signature page are given in the FISAP instructions.

Part II: Application to Participate

Schools that wish to request Title IV campus-based funds for an upcoming award year must complete Part II of the FISAP. In addition to requesting funds for one or more campus-based program, schools use this part to report institutional information on student enrollment, tuition and fee assessments, and Federal Pell Grant and state aid expenditures, as well as eligible aid applicants. The amount of funds an institution receives is determined by formulas contained in federal law and regulations.

Section A: Request for Funds

In Section A, a school lists the amount of funds it wants to receive for each campus-based program in which it participates. If the school enters “0” for a program, it will not receive an allocation for that program, even if it is eligible to do so. Actual allocations are computed by ED and may differ from the amounts the school requests.

A school should not request more federal funds for a program than it expects to use. Unexpended funds from a previous award year indicate that a school overestimated its needs. This may result in a reduced program allocation for the upcoming award year.

This section requires schools to enter two types of funding requests for the Federal Perkins Loan Program. In *Field 1*, schools report the level of expenditure (LOE). LOE is the total amount a school expects to use to make loans to students and to pay administrative and collection costs in the upcoming award year. In *Field 2*, schools report the Federal Capital Contribution (FCC). FCC is the amount of new federal funds to be contributed to a school’s existing Federal Perkins Loan fund.

In *Field 3* of this section, schools request Federal Supplemental Educational Opportunity Grant (FSEOG) funds. A school’s FSEOG request is the amount of federal funds it needs to make awards to students and to pay program administrative costs in the upcoming award year.

In *Field 4* of this section, schools request Federal Work-Study (FWS) funds. A school’s FWS request is the amount of federal funds it needs to make awards to students to pay their earned compensation, cover allowable Job Location and Development Program expenditures, and pay administrative costs. Beginning with the 2000-01 award year, at least 7 percent of the institution’s federal funds must be spent in community-service activities.

Total funds expended from each campus-based program must contain both a federal and nonfederal share. Part II, Section A, of the FISAP concerns the federal share only. However, schools must consider their nonfederal

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

***Section C, which formerly covered the Expanded Lending Option (ELO) section, was eliminated as of October 1, 1998. In Field 6, Title III schools can request a waiver for FSEOG and FWS.**

Reference:

- 34 CFR Parts 607-609

Reference:

- DCL-CB-98-11 (LD)

Reference:

- 34 CFR 673.4(d)(3)

shares when determining expected campus-based expenditures and their need for federal funds.

Section B

Field 5 in Section B is reserved for future use and should *not* be completed.

Section C*: FWS and/or FSEOG Institutional Share Waiver Request

Fields 6.1 and 6.2 in Section C should be completed by institutions that qualify for and desire a waiver. A qualified institution is one that is designated as an eligible Title III institution under the Strengthening Institutions or Strengthening Historically Black Colleges and Universities programs. Such institutions are eligible for FWS and FSEOG waivers. Eligible institutions under the Strengthening Historically Black Graduate Institutions Program are eligible for FWS waivers only.

A waiver allows an institution to use only federal funds when making FWS and/or FSEOG awards. For the institution, this results in less funding being available for awards to students in these programs, however, the institution does not have to expend funds.

Section D: Federal Perkins Loan Program Liquidation Request

Field 7 in Section D should only be completed by institutions that wish to withdraw from the Federal Perkins Loan Program. The school must follow the approved liquidation procedures.

Section E: Waiver Request for Under Use of Funds

Field 8 in Section E should only be completed by institutions that wish to request a waiver of penalty for under using federal campus-based funds. If an institution returned more than 10 percent of its Federal Perkins Loan, FSEOG, or FWS allocation the previous award year, the institution's allocation for the following year will automatically be reduced for that program by the dollar amount returned for that previous award year.

Schools may submit a written explanation of the circumstances that caused the underuse of funds in the electronic FISAP "additional information" screen. If a school needs to submit additional documentation to support its written explanation, it must be submitted with the signature page and certification forms.

Each waiver request will be considered by an ED review panel. The panel reviews the request and the school will get a letter approving or disapproving the request. If it is approved, the waiver will appear on the school's Official Notice of Funding.

***Beginning with the 2000-01 award year, schools select "Yes" or "No" when asked if they have a traditional calendar.**

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

****Assessed fee revenues are fees that are charged to all students.**

Section F: Information on Enrollment

All schools must complete *Field 9** in Section F. Section F collects enrollment information that ED uses to compute a school's campus-based program allocations. A school reports its enrollment information on the basis of whether it uses a traditional or non-traditional calendar.

A school that uses a traditional calendar:

- has academic terms that are quarters, semesters, or trimesters *and*
- has only one admission period during each academic term.

It includes any student enrolled in one or more undergraduate or graduate/professional classes, except students who exclusively were auditing classes. Traditional schools complete *Field 10* or *Fields 11 and 12*.

A school that uses a non-traditional calendar:

- admits a new group of students monthly or more frequently into a majority of its eligible programs, even if they attend classes on a quarter, semester, or trimester basis *or*
- has students enroll on a quarter, semester, or trimester basis, but admits a new group of students in a program monthly, bimonthly, and so on.

Non-traditional schools complete *Fields 13-25*.

Section G: Assessments and Expenditures

The information reported in Section G is also used to compute a school's need for campus-based program funds.

In *Field 26* of this section, schools must disclose tuition and fee revenues** assessed for all students reported as enrolled in Section F of Part II.

Assessed tuition and fee revenues include:

- amounts charged to and collected from students,
- amounts charged but not collected, and
- remissions or waivers of costs.

If a school charges a total, inclusive fee for tuition and room and board, it may not count the room and board portion of the fee in assessed revenues. It must allot a reasonable amount of the total fee to tuition only.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

If a school assesses and collects fees on behalf of a non-institutional agency, it may not count these fees in assessed revenues. (For example, student medical-insurance premiums collected by a school and passed on to an insurance company are not considered school-assessed revenues.)

Field 27 in Section G requires schools to report total Federal Pell Grant expenditures for the previous award year. This amount should agree with the final cumulative amount entered in GAPS.

Finally, *Field 28* in Section G collects information on state scholarships and grant expenditures for undergraduates for the previous award year. These expenditures consist of:

- state grants,
- state scholarships,
- tuition equalization awards,
- competitive awards,
- instructional grant awards, and
- Leveraging Educational Assistance Partnership (LEAP) Program Grants (formerly State Student Incentive Grants [SSIGs]).

**Reference:**

- DCL-CB-98-15

LEAP Program award amounts include the total of both federal and nonfederal shares, regardless of the source of the nonfederal share.

State awards include those from the state in which a school is located and those that students bring with them from other states. State awards should not be included if a school makes the final decisions about which students get the funds, unless such funds are used as a source of the nonfederal share for the LEAP Program.

Robert C. Byrd Honors Scholarships and Paul Douglas Teacher Scholarships are excluded from state awards; they must not be reported in Section G.

Section H: Information on Eligible Aid Applicants

Section H covers *Fields 29 - 44*. In Section H, a school reports information for eligible aid applicants on the basis of a student's dependency status (dependent or independent), program classification (undergraduate or graduate), and total family income (the total of a student's and parents' or a student's and spouse's taxable and nontaxable income used to calculate the student's Expected Family Contribution [EFC]). Information for students with an automatic zero EFC (no family contribution is expected) is also

**Reference:**

**Reference:**

- HEA, Part F
- 34 CFR 600.2
- *Student Financial Aid Handbook: Student Eligibility*
- *FISAP Instructions Booklet*

broken down. Backup documentation for Section E must be maintained at the institution.

Information is reported for students who enrolled at the institution for the previous award year and applied for financial aid for that year. Any student who meets the definition of an “eligible aid applicant” must be included, even if the student received no financial aid funds.

An “eligible aid applicant” is a regular student who:

- was enrolled in an academic or training program eligible for the campus-based program during the previous award year;
- met citizenship or residency requirements for the previous award year;
- applied for financial aid for the previous award year, as documented by the “official” Expected Family Contribution (EFC) calculated by the Central Processing System (CPS); *and*
- has on file all the information needed to perform a needs analysis based on required information in the HEA.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

***A school will need its Federal Perkins Loan Program account ledgers to complete Part III of the FISAP.**

**Reference:**

- DCL-CB-98-11 (LD)

****If your school is liquidating its Federal Perkins Loan fund or if your school did not receive FCC for the award year of the report, refer to page 8 of the *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet* for further information.**

Part III: Federal Perkins Loan Program

Note: The Federal Perkins Loan Program was formerly referred to as the National Direct Student Loan Program and the National Defense Student Loan Program. Some schools report information on the FISAP about borrowers who received loans under one of these former program names. This discussion uses the name “Federal Perkins Loan Program” to refer to loans made under any of the three program names.

Part III* must be completed if:

- a school is a continuing participant in the Federal Perkins Loan Program;
- a school is liquidating its Federal Perkins Loan fund;**
- a school did not receive a Federal Capital Contribution (FCC) for the previous award year but did make loans from its Federal Perkins Loan fund;** *or*
- a school received Federal Perkins Loan funds for the first time in the previous award year.

If the school has set up its Federal Perkins Loan accounts as recommended in Chapter 5 of this book, the information needed to complete this part should be readily available. Although schools may use different account-numbering systems, the Federal Perkins Loan fund account should contain subsidiary accounts that correspond to appropriate line items in Part III.

If a school contracts with a third-party servicer to collect and manage Federal Perkins Loan funds, the school is still responsible for the accuracy of the information reported to it by that servicer. Any fiscal reports provided by a servicer should be checked against the school’s Federal Perkins Loan fund accounts and student records before being used to complete Part III of the FISAP.

Section A: Cumulative Fiscal Report

This section is a historical report of a school’s Federal Perkins Loan fund activity from the inception of the program at the school through June 30 of the most recently ended award year. This report is the balance sheet for the school’s Federal Perkins Loan fund, and *it must balance*. Institutions that close the amounts in each of the income and expense accounts to the fund balance each fiscal year will need to maintain a separate record of the *cumulative* income and expenses since the inception of the program at their schools to prepare this section.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

The field numbers in the left margin of Part III, Section A, do not correspond to the Federal Perkins Loan ledger account numbers used in Chapter 5 of this book. Because the field numbers in this section of the FISAP often change from one year to the next year, this discussion refers to items on the FISAP balance sheet and the account number and title of the corresponding school ledger account.

Several field items in this section ask for the number of borrowers. This is an unduplicated, cumulative count of borrowers in the category represented by the field item.

- For example, under the field item, “Loan Principal Collected,” the number of borrowers would be the unduplicated, cumulative count of the number of borrowers who made payments on their loans. In other words, if a borrower is making payments on two loans, that borrower is counted only once.

Additional information about the items in this section can be found in the current version of the FISAP instructions, which is sent to schools in July of every year.

Field 1.1: *Cash on Hand and in Depository as of 6/30/99:* Account # 1-1, Cash, Federal Perkins Loans

Field 1.2: *Cash on Hand and in Depository as of 10/31/99:* Account # 1-1, Cash, Federal Perkins Loans

Field 2: *Funds Receivable from Federal Government*

Field 3: *Funds Receivable from Institution:* Account # 6-2, Funds Transferred from Institution - Perkins - ICC

Field 4: *Funds Advanced to Students:* Account # 1-2, Funds Advanced to Students

Field 5: *Loan Principal Collected:* Account # 2-1, Loan Principal Collected

Field 6: *Defaulted Loan Principal Assigned to and Accepted by the United States:* Account # 2-2, Defaulted Loan Principal - Assigned to Federal Government

Field 7: *Total Loan Principal Cancelled on Loans Made Prior to 7/1/72 for Teaching/Military Service:* The sum of accounts:

- # 2-3 Loan Principal Cancelled - Teaching Service (10% Rate), Loans Made Prior to 7/1/72

- # 2-4 Loan Principal Cancelled - Teaching Service (15% Rate), Loans Made Prior to 7/1/72
- # 2-5 Loan Principal Cancelled - Military Service (12.5% Rate), Loans Made Prior to 7/1/72

Field 8: *Loan Principal Cancelled for Certain Subject Matter Teaching Service (Math, Science, Foreign Languages, Bilingual Education) on Loans Made 7/23/92 and After:* The sum of accounts:

- # 2-9 Loan Principal Cancelled - Teaching Service (Field of Expertise: Math, Science, Foreign Language, Bilingual Education) (15% Rate), Loans Made 7/23/92 and After
- # 2-10 Loan Principal Cancelled - Teaching Service (Field of Expertise: Math, Science, Foreign Language, Bilingual Education) (20% Rate), Loans Made 7/23/92 and After
- # 2-11 Loan Principal Cancelled - Teaching Service (Field of Expertise: Math, Science, Foreign Language, Bilingual Education) (30% Rate), Loans Made 7/23/92 and After

Field 9: *Loan Principal Cancelled for All Other Authorized Teaching Service on Loans Made 7/1/72 and After:* The sum of accounts:

- # 2-6 Loan Principal Cancelled - Teaching Service (15% Rate), Loans Made 7/1/72 and After
- # 2-7 Loan Principal Cancelled - Teaching Service (20% Rate), Loans Made 7/1/72 and After
- # 2-8 Loan Principal Cancelled - Teaching Service (30% Rate), Loans Made 7/1/72 and After
- # 2-18 Loan Principal Cancelled - Head Start (15% Rate)

Field 10: *Loan Principal Cancelled for Military Service on Loans Made 7/1/72 and After:* Account #2-12, Loan Principal Cancelled - Military Service (12.5% rate), Loans Made 7/1/72 and After

Field 11: *Loan Principal Cancelled for Volunteer Service:* The sum of accounts:

- # 2-16 Loan Principal Cancelled - Peace Corps or VISTA (15% Rate)

- # 2-17 Loan Principal Cancelled - Peace Corps or VISTA (20% Rate)
- # 2-19 Loan Principal Cancelled - Volunteer Service (15% Rate)
- # 2-20 Loan Principal Cancelled - Volunteer Service (20% Rate)

Field 12: *Loan Principal Cancelled for Law Enforcement and Corrections Officer Service*: The sum of accounts:

- # 2-21 Loan Principal Cancelled - Law Enforcement and Corrections Officer Service (15% Rate)
- # 2-22 Loan Principal Cancelled - Law Enforcement and Corrections Officer Service (20% Rate)

Field 13: *Loan Principal Cancelled for Child/Family/Early Intervention Service on Loans Made 7/23/92 and After*: The sum of accounts:

- # 2-26 Loan Principal Cancelled - Child/Family and Early Intervention Service (15% Rate)
- # 2-27 Loan Principal Cancelled - Child/Family and Early Intervention Service (20% Rate)
- # 2-28 Loan Principal Cancelled - Child/Family and Early Intervention Service (30% Rate)

Field 14: *Loan Principal Cancelled for Nurse/Medical Technician Service on Loans Made 7/23/92 and After*: The sum of accounts:

- # 2-23 Loan Principal Cancelled - Nurse/Medical Technician (15% Rate)
- # 2-24 Loan Principal Cancelled - Nurse/Medical Technician (20% Rate)
- # 2-25 Loan Principal Cancelled - Nurse/Medical Technician (30% Rate)

Field 15: *Loan Principal Cancelled, Death/Disability*: The sum of accounts:

- # 2-13 Loan Principal Cancelled - Death
- # 2-14 Loan Principal Cancelled - Disability

*Field 17 has been added to the FISAP; it is to be filled in by closed schools.

(Note: ED expects a school to file a FISAP for the award year the school closed.)

Field 16: *Loan Principal Cancelled, Bankruptcy:* Account # 2-15, Loan Principal Cancelled - Bankruptcy

Field 17*: *Loan Principal Cancelled for Loans Discharged Due to Closed Schools*

Field 18: *Loan Principal Adjustments, Other:* Account # 2-29, Loan Principal Adjustments - Other

Field 19: *Federal Capital Contributions:* Account # 4-1, Federal Fund Balance

Field 20: *Repayments of Fund Capital to Federal Government:* Account # 6-7, Repayments to Federal Government

Field 21: *Institutional Capital Contributions:* Account # 4-2, Institutional Fund Balance

Field 22: *Repayments of Fund Capital to Institution:* Account # 6-8, Repayments to Institution

Field 23: *Interest Income on Loans:* Account # 6-3, Interest Earned on Loans

Field 24: *Other Income:* The sum of accounts:

- # 6-4 Other Earnings - Late Charges on Loans Made 7/1/87 and After
- # 6-5 Other Earnings - Miscellaneous

Field 25: *Reimbursements to the Fund of Amounts Cancelled on Loans Made 7/1/72 and After:* Account # 6-6, Reimbursement of Amounts Cancelled on Loans Made 7/1/72 and After

Field 26.1: *Administrative Cost Allowance:* Account # 7-2, Administrative Cost Allowance (ACA) Paid to Institution

Field 26.2: *Collection Costs:* Account # 7-3, Other Collection Expenses

Field 26.3: *Administrative Cost Allowance and Collection Costs (Control):* The sum of accounts # 7-2 and 7-3

Field 27: *Cost of Loan Principal and Interest Cancelled for Teaching/Military Service on Loans Made Prior to 7/1/72:* The sum of accounts:

- # 7-4 Cost of Loan Principal and Interest Cancelled - Teaching Service, Loans Made Prior to 7/1/72
- # 7-6 Cost of Loan Principal and Interest Cancelled - Military Service, Loans Made Prior to 7/1/72

Field 28: *Cost of Principal and Interest Canceled for Certain Subject Matter Teaching Service (Math, Science, Foreign Languages, Bilingual Education) on Loans Made 7/23/92 and After*

Field 29: *Cost of Principal and Interest Canceled for All Other Authorized Teaching Service on Loans Made 07/01/1972 and After*

Field 30: *Cost of Loan Principal and Interest Cancelled for Military Service on Loans Made 7/1/72 and After: Account # 7-8, Cost of Loan Principal and Interest Cancelled - Military Service, Loans Made 7/1/72 and After*

Field 31: *Cost of Loan Principal and Interest Cancelled for Volunteer Service in the Peace Corps or under the Domestic Volunteer Service Act of 1973: The sum of accounts:*

- # 7-12 Cost of Loan Principal and Interest Cancelled - Peace Corps or VISTA
- # 7-14 Cost of Loan Principal and Interest Cancelled - Volunteer Service

Field 32: *Cost of Loan Principal and Interest Cancelled for Law Enforcement and Corrections Officer Service: Account # 7-15, Cost of Loan Principal and Interest Cancelled - Law Enforcement and Corrections Officer Service*

Field 33: *Cost of Loan Principal and Interest Cancelled for Child/Family and Early Intervention Service on Loans Made 7/23/92 and After: Account # 7-17, Cost of Loan Principal and Interest Cancelled - Child/Family and Early Intervention Service`*

Field 34: *Cost of Loan Principal and Interest Cancelled for Nurse/Medical Technician Service on Loans Made 7/23/92 and After: Account # 7-16, Cost of Loan Principal and Interest Cancelled - Nurse/Medical Technician*

Field 35: *Cost of Principal and Interest Cancelled Because of Death/Disability: The sum of accounts:*

- # 7-9 Cost of Loan Principal and Interest Cancelled - Death
- # 7-10 Cost of Loan Principal and Interest Cancelled - Disability

Field 36: *Cost of Principal and Interest Cancelled Because of Bankruptcy: Account # 7-11, Cost of Loan Principal and Interest Cancelled - Bankruptcy*

Field 37: *Cost of Loan Principal and Interest Assigned to and Accepted by the United States: Account # 7-18, Cost of Defaulted Loan Principal and Interest Assigned to Federal Government*

*Field 38 has been added to the FISAP; it is to be filled in by closed schools.

Reference:

****The amount released applies to any amounts released to ED prior to September 30th.**

Field 38*: *Cost of Loan Principal Due and Interest Canceled for Loans Discharged Due to Closed Schools*

Field 39: *Other Costs or Losses*: Account # 7-19, Other Costs or Losses

Field 40: *Total Debits and Credits*: Sum of fields 1-39

Section B: Annual Fund Activity

In *Field 1* of this section, a school reports the final adjusted Federal Capital Contribution (FCC) authorization.

Amount of school's original allocation for the previous award year

+ any supplemental allocation amounts received for the year

- any allocation amounts released** for the year

Final adjusted FCC authorization

In *Field 2*, FCC transferred to and spent in Federal Supplemental Educational Opportunity Grant (FSEOG) Program and Federal Work-Study (FWS) Program must be reported. The sum of amounts transferred to and spent in both programs may not exceed 25 percent of a school's total FCC allocation. Any FCC transferred to FSEOG or FWS must be entered in GAPS as an expenditure against the school's Federal Perkins Loan authorization, *not* against its authorization for FSEOG or FWS.

In *Field 3*, schools must report the amount of final adjusted authorized FCC for the previous award year that was not requested (drawn down) from GAPS by the end of the year. (Schools may not request FCC after June 30 of a given award year.) Authorized FCC amounts that are not requested will be deducted from funds available in a school's GAPS's grantee account.

In *Field 4*, the amount of Institutional Capital Contribution (ICC) deposited into a school's Federal Perkins Loan fund for the previous award year must be reported.

In *Field 5*, schools must report the amount of loans advanced to students which is the net amount of loans made to borrowers from a school's Federal Perkins Loan fund during the previous award year. The amount of loans advanced should equal the total amount of loans paid to borrowers during the year *minus* any refunds or repayments of loans made during the year. Refunds or repayments of prior year loans are not included.

If a school took its entire Federal Perkins Loan ACA or a portion of it from an FSEOG or FWS allocation from a prior award year, and the school recovered Federal Perkins Loan funds in the award year of the report, which were issued to students in a prior award year, the school must reduce its Federal Perkins Loan ACA for that prior award year. The school may:

- follow FSEOG or FWS procedures for handling prior-year recoveries *or*

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

- make no adjustments to FSEOG or FWS prior-year recoveries.

Instead, the school may reduce the base amount on which the ACA for the reporting year is calculated. Refer to the example on page 17 of the *FISAP Instructions Booklet* to perform this reduction.

In *Field 6*, administrative cost allowance (ACA) must be reported. ACA is the amount withdrawn from a school's Federal Perkins Loan fund to cover the cost of administering one or more Title IV campus-based programs.

In *Field 7*, schools must report the total amount of principal and interest repaid by borrowers from all sources during the previous award year, as well as an unduplicated count of borrowers who made payments (in other words, a borrower with two loans is counted only once). The total dollar amount repaid includes:

- all amounts received as payments against borrowers' loans, regardless of the source of the payment,
- any portion of a payment kept by a collection agency, and
- penalty charges or late fees collected and deposited into the school's Federal Perkins Loan fund.

The total dollar amount repaid does *not* include:

- collection-firm charges due as collection costs that are over and above the amount of principal and interest collected *or*
- interest received from any investments.

Finally, *Field 8* requires a school to report the name, title, and office telephone number of the school loan officer responsible for Federal Perkins Loan collections if this is a person other than the financial aid administrator or fiscal officer who signs the FISAP.*

*The field requesting the name and address of the billing agent(s) has been eliminated in the FISAP Report for 1998-99.

Section C: Cumulative Repayment Information

This section analyzes the repayment status of all of a school's past and present Federal Perkins Loan borrowers as of the end of the previous award year. It collects information on the number of borrowers in various repayment categories, the amount lent, and the outstanding principal amount of their loans. When counting borrowers, schools should count the number of actual borrowers, not the number of loans made. Some borrowers may have received more than one Federal Perkins Loan.

If a borrower has more than one loan and the loans fall into more than one repayment category, dollar figures for each loan should be reported in the field that describes the status of that loan. For example, a borrower might have one Perkins Loan that is paid in full and another Perkins Loan that is still in repayment. The amount of the first loan would be reported under "borrowers whose loans are fully retired," while the amount of the second loan would be reported under "borrowers on schedule in repayment." In

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

***If a school is liquidating its Federal Perkins Loan portfolio, ED will not consider the school to have fully liquidated it unless the school purchases or assigns all loans with a principal amount outstanding to ED.**

****These payments must be sent to:**

**National Payment Center
Perkins Loan (NDSL)
P.O. Box 4169
Greenville, TX 75403-4169**

Reference:

- *The Federal Student Financial Aid Handbook: Campus-Based Programs*
- 34 CFR 674.37

any case, a borrower should be counted only once and reported in the “number of borrowers” column and the category where his or her principal amount outstanding is the greatest. In the example above, that category would be “borrowers on schedule in repayment.”

In *Field 1.1*, schools report borrowers whose loans are fully retired (borrowers whose loans have been completely repaid or cancelled).

This category includes loans that were retired after the remaining outstanding principal was written off.

In *Field 1.2*, schools report loans that have been purchased.* Of the loans included in *Field 1.1* as fully retired, schools report the outstanding principal balance, all interest due, and any collection fees due on all loans submitted for assignment that were not accepted, and for which the school reimbursed the Perkins Loan fund. This entry is used for liquidation purposes.

In *Field 2*, schools report borrowers whose defaulted notes were assigned and accepted (borrowers whose defaulted loans were assigned by a school and officially accepted by ED as of the end of the previous award year). Total principal amount outstanding for these loans is the amount that was outstanding when the loans were assigned to and accepted by ED. The amount may not include any penalty charges or late fees assigned to ED for collection *or* any payments a school might have received from borrowers after ED accepted their loans. Payments received by a school after a loan is assigned (to ED) must be sent directly to ED.**

In *Field 3*, schools report all borrowers not in repayment (borrowers attending an eligible postsecondary school at least half time and those borrowers whose loans are in a grace period or in deferment). This includes borrowers attending the school that made the loans, borrowers attending other schools under an authorized in-school deferment, and borrowers whose loans are in an initial or post-deferment grace period.

- For all NDSL loans made on or after October 1, 1980 and before July 1, 1993, a borrower is also entitled to a 6-month post-deferment grace period after each of the deferments that apply to those loans except after a hardship deferment. Neither the deferment nor the post-deferment grace is counted as part of the 10-year repayment period.

In *Field 4*, schools report borrowers making loan payments on schedule as well as the total principal amount outstanding on these loans.

In *Field 5.1*, schools report borrowers in default less than 240 days (monthly installments) or 270 days (other installments).

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

**Reference:**

- 34 CFR 674.2(b)

In *Field 5.2*, schools report borrowers in default 240 days or more (monthly installments) *or* 270 days or more (other installments) up to 2 years.

In *Field 5.3*, schools report borrowers in default more than 2 years and up to 5 years.

In *Field 5.4*, schools report borrowers in default more than 5 years.

Cohort Default Rate

Several terms must be defined for a school to accurately calculate its Federal Perkins Loan cohort default rate.

A borrower *enters repayment* the day after an initial grace period ends or the day the borrower waives the initial grace period. The start date of the repayment period does not change if a deferment or cancellation is granted after the borrower enters repayment.

A loan is *in default* if a borrower fails to make a scheduled installment payment on time or fails to comply with other terms of the signed promissory note. For the purpose of calculating a cohort default rate, default is in effect when payment is not made for 240 days for loans repaid in monthly installments and 270 days for other loans. A loan is still considered to be in default if, in order to avoid the default, a borrower's payment is made by an institution, its owner, an agency, a contractor, an employee, or any other entity or individual affiliated with the institution.

A loan is *not in default* if a borrower has:

- made six consecutive voluntary monthly payments,
- brought the loan current,
- paid the loan in full,
- received a retroactive deferment or forbearance, *or*
- had the loan rehabilitated or cancelled.

Section D: Institutions With 30 or More Borrowers Who Entered Repayment in the 1997-98 Award Year for the Cohort Default Rate

Fields 1.1 - 1.3 in Section D should only be completed by schools that have 30 or more borrowers who entered repayment in the 1997-98 award year.

***The FISAP now asks schools to indicate “Yes” or “No” when asked if they have had fewer than 30 borrowers who entered repayment.**

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

Section E: Institutions With Less Than 30 Borrowers Who Entered Repayment in the 1997-98 Award Year for the Cohort Default Rate

Fields 2.1 - 2.5 in Section E should only be completed by schools that have fewer than 30 borrowers* who entered repayment in the 1997-98 award year.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

*The amount released applies to any amount released to ED prior to September 30th.

**FWS or Perkins funds transferred to FSEOG are reported in GAPS in the program they were authorized. Also, if a school transfers its Perkins funds before depositing them in its Federal Perkins Loan fund, the school does not have to match these transferred funds with its own institutional funds.

Part IV: Federal Supplemental Educational Opportunity Grant (FSEOG) Program

A school must complete Part IV if it received Federal Supplemental Educational Opportunity Grant (FSEOG) Program funds for the previous award year. This part summarizes the school's use of FSEOG funds during that year.

Section A: Federal Funds Authorized for FSEOG

A school reports its FSEOG authorization and any changes in *Field 1* of Section A.

Amount of school's original allocation for the previous award year

- + any supplemental allocation amounts received for the year
- any allocation amounts released for the year*

Final adjusted FSEOG authorization

Section B: Federal Funds Available for FSEOG Expenditures

Section B is used to calculate federal funds available for a school's FSEOG expenditures in the previous award year.

Final adjusted FSEOG authorization

- + Federal Work-Study (FWS) funds transferred to and spent in FSEOG**
- + Federal Perkins Loan Federal Capital Contribution (FCC) funds transferred to and spent in FSEOG**
- + FSEOG funds carried back
- + Additional FSEOG funds carried back and spent for summer enrollment through June 30th of the reporting year
- FSEOG funds carried forward

Federal funds available for FSEOG expenditure

In *Field 2*, a school must enter the amount of FWS funds transferred to FSEOG. This amount must have been spent in FSEOG. Any unspent amount must be returned to FWS. The maximum amount that may be transferred from FWS to FSEOG is 25 percent of the school's original and supplemental FWS allocations for the award year being reported. *The amount in this field must be the same as the entry in Field 3 of Part V.*

***Fields 4-6 are new fields in the FISAP. They indicate the new carry-forward and carry-back provision for FSEOG funds.**

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

A school must also report in *Field 3* the amount of Federal Perkins Loan FCC transferred to FSEOG. This amount must have been spent in FSEOG. Any unspent amount must be returned to the Federal Perkins Loan fund. The maximum amount that may be transferred from Federal Perkins Loan FCC to FSEOG is 25 percent of the school's original and supplemental FCC allocations for the award year being reported.

*Fields 4-6** require schools to report the amount of FSEOG funds carried forward and carried back between award years. A school may carry up to 10 percent of its FSEOG funds forward to be spent in the next award year. Similarly, if a school needs additional FSEOG funds during the current award year, it may carry back up to 10 percent of its next award year's FSEOG allocation. Additional FSEOG funds may be carried back and spent as payments to students for summer enrollment between May 15 and June 30 of the previous award year. In Section B of Part V, a school must report any such activity that affected expenditures during the award year for which it is filing the FISAP report.

Field 7 requires schools to report the sum of the *Fields 1 - 6* of Sections A and B.

Section C: Funds to FSEOG Recipients

Fields 8 and 9 in Section C asks for the total amount of FSEOG funds paid to recipients. This amount must consist of the required 75 percent federal and 25 percent nonfederal shares. The nonfederal share reported in this section may not exceed the required 25 percent.

Section D: Federal Funds Spent for FSEOG Program

Fields 10-12 in Section D shows how a school spent the federal portion of its FSEOG funds. The total amount of the federal portion of FSEOG funds spent is equal to the federal share of FSEOG funds paid to students *plus* the administrative cost allowance (ACA) claimed from federal FSEOG funds.

The 75 percent federal share of FSEOG funds paid to students includes any FWS funds or Federal Perkins Loan FCC transferred to FSEOG and used to make awards to students.

The ACA reported in this section is the amount taken from a school's FSEOG allocation to cover the cost of administering one or more Title IV campus-based programs.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

Section E: Use of FSEOG Authorization

Section E shows how much of a school's total federal FSEOG allocation was used and enables the school to calculate the amount of the unexpended federal portion of FSEOG funds.

In *Field 13*, schools report the expended FSEOG authorization. This amount must agree with the school's final FSEOG expenditures reported in GAPS.

FSEOG funds spent (*Fields 6 + 12*)

- amount of FWS funds transferred to and spent in FSEOG (*Field 2*)
- amount of Federal Perkins Loan FCC transferred to and spent in FSEOG (*Field 3*)
- funds carried back and spent (*Field 4*)
- additional funds carried back and spent for summer enrollment (*Field 5*)

Expended FSEOG authorization

In *Field 14*, schools report on unexpended FSEOG authorization. A school's unexpended FSEOG authorization is equal to its final adjusted FSEOG authorization amount (*Field 1*) *minus* its total expended FSEOG authorization (*Field 13*). If this amount is a positive dollar figure, the amount of unexpended FSEOG funds will be deducted from the school's GAPS grantee account. If this amount is a negative dollar figure, it is *not* be reported on the FISAP; this is an excess FSEOG expenditure for the school and must be charged to institutional funds.

Section F: Miscellaneous Information

Field 15 in Section F of Part IV concerns prior-year recoveries.* Prior-year recoveries are the federal share of either any FSEOG monies students have returned to a school during the reported award year from awards disbursed before that award year *or* any recoveries of FSEOG funds a school failed to report on a previous FISAP.

- For example, if a student received an FSEOG award during the 1997-98 award year and returned all or part of the award to the school during the 1998-99 award year, the federal share of the amount returned would be considered a prior-year recovery.

Prior-year recoveries generally occur as a result of an incorrect analysis of a student's financial need, an error in disbursing funds, or a

***Schools may now report FSEOG prior-year recoveries for prior award years beginning with the 1993-94 award year.**

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

refund/repayment calculation. Any payments resulting from audit or program review liabilities should not be reported as prior-year recoveries; ED handles reporting in these situations. Moreover, FSEOG authorizations for the award year of the report or FSEOG funds spent from the same authorization or unexpended FSEOG funds from the same authorization should not be reported as prior-year recoveries.

A school is no longer required to follow separate procedures for processing open award and closed award prior-year recoveries. The following process should be used to report all prior-year recoveries:

1. If a school received FSEOG funds from students in the award year of the FISAP that were disbursed in prior award years, the school enters the federal share next to the corresponding award year in Section F of the FISAP.
2. Adjust the award expenditures and administrative cost allowance for the year the award was made on the GAPS report.

All prior-year recoveries reported to ED will be deobligated from the appropriate awards.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

*The amount released applies to any funds released to ED prior to September 30th.

Part V: Federal Work-Study (FWS) Program

A school must complete Part V of the FISAP if it received Federal Work-Study (FWS) Program funds for the previous award year. This part summarizes the school's use of FWS funds during that year.

Section A: Federal Funds Authorized for FWS

The final adjusted FWS authorization reported in *Field 1* of Section A should equal the amount authorized in a school's original allocation for the previous award year, *plus* any supplemental allocation amounts for the year, *minus* any allocation amounts released* for the year.

Section B: Federal Funds Available for FWS Expenditures

Section B is used to calculate the amount of federal funds available for a school's FWS expenditures in the previous award year. The total amount of federal funds available is calculated on the basis of the school's final adjusted FWS authorization, the amount of funds transferred between certain campus-based programs, and the amount of FWS funds carried forward and carried back between award years.

In *Field 2*, a school must report the amount of Federal Perkins Loan Federal Capital Contribution (FCC) transferred to FWS. This amount must have been spent in FWS *or* any unspent amount must have been returned to the Federal Perkins Loan fund. The maximum amount that may be transferred from Federal Perkins Loan FCC to FWS is 25 percent of the school's original and supplemental FCC allocations for the previous award year.

In *Field 3*, a school must enter the amount of FWS funds transferred to FSEOG. This amount must have been spent in FSEOG *or* any unspent amount must have been returned to FWS. The maximum amount that may be transferred from FWS to FSEOG is 25 percent of the school's original and supplemental FWS allocations for the previous award year.

In *Fields 4-9*, schools report the amount of FWS funds carried forward and carried back between award years. A school may carry up to 10 percent of its FWS funds forward to be spent in the next award year. Similarly, if a school needs additional FWS funds during an award year, it may carry back up to 10 percent of its next award year's FWS allocation. Additional FWS funds may be carried back and spent as payments to students for wages earned during summer employment between May 15 and June 30 of the previous award year. A school must report any such activity that affected expenditures during the award year for which it is filing the FISAP report.

In *Field 10*, schools report the total funds available from the previous award year. *Field 10* is the sum of *Fields 1-9*.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

***Schools would have to use the value in cash consistently for all students receiving this type of compensation.**

Reference:

- See Section 3.2 of this book for further details about the federal share of FWS.

Section C: Total Compensation for FWS

In *Fields 11a-11c* and *Field 12* of Section C, a school reports the total amount of earned FWS compensation paid to students during the previous award year. This is the gross amount of wages paid and includes taxes and other withholdings. The amount must, at a minimum, consist of 25 percent nonfederal funds, which is also reported in Section C. The nonfederal (institutional) share includes amounts contributed by the school, as well as amounts contributed by any off-campus employer. If the off-campus employer is a private, for-profit organization, the nonfederal share must consist of at least 50 percent of the earned wages. If the nonfederal share of student compensation was paid in kind (for example, as a tuition waiver or room and board), the in-kind compensation value* must be converted to a cash amount for this reporting.

Section D: Funds Spent from Federal Share of FWS

In *Field 13*, a school reports the federal share of earned compensation paid to all students. This includes the federal share of earned compensation paid to FWS reading tutors of children and tutors in family literacy programs even though the federal share exceeds the 75 percent rate.

The total federal share of FWS earned compensation is the maximum 75 percent federal share of FWS funds paid to students. The maximum 75 percent federal share applies to on-campus employment and to off-campus employment at public or private, non-profit agencies.

The federal share amount may be 100 percent if a school has an approved waiver of its institutional share as an eligible Title III institution; it may be as high as 100 percent for FWS students who worked in a family literacy program or as reading tutors.

Wages paid for for-profit, off-campus employment may contain a maximum 50 percent federal share; an institutional share waiver may not apply to these wages.

The ACA reported in *Field 14* of Section D is the amount a school takes from its FWS allocation to cover the cost of administering one or more Title IV campus-based programs.

In *Field 15*, schools report the federal share of Job Location and Development Program (JLD) expenditures which must be whichever is less: \$50,000 or 10 percent of a school's original and supplemental FWS allocations.

In *Field 16*, schools report the total federal funds spent for FWS. *Field 16* is the sum of *Fields 13-15*.

**Reference:**

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

***If a school overpays a student with FWS funds, the school pays the student with school funds and returns the federal FWS funds to ED.**

Section E: Use of Federal FWS Authorization

Section E shows how much of a school's total federal FWS allocation was used and enables the school to calculate the amount of unexpended federal FWS funds.

In *Field 17*, schools report expended federal FWS authorization. A school's expended federal FWS authorization must agree with the final FWS expenditure amount reported in GAPS. This amount may not exceed a school's final adjusted FWS authorization, as reported in Section A of Part V.

In *Field 18*, schools report unexpended FWS authorization. A school's unexpended FWS authorization is equal to its final adjusted FWS authorization amount (*Field 1*) *minus* its total expended FWS authorization (*Field 17*). If this amount is a positive dollar figure, the amount of unexpended FWS funds will be deducted from the school's GAPS grantee account. If this amount is a negative dollar figure, it is *not* reported on the FISAP. The negative dollar figure represents an excess FWS expenditure by the school and must be charged to the institutional share of earned compensation.

Section F: Miscellaneous Information

Schools report prior-year recoveries in *Fields 19a - 19e* in Section F. Prior-year recoveries are the federal share of any FWS monies students have returned to a school during the previous award year from wages paid before the previous award year *or* any recoveries of FWS funds a school failed to report on a previous FISAP.

- For example, if a student received FWS wages during the 1997-98 award year and returned all or part of the wages to the school during the 1998-99 award year, the federal share of the amount returned would be considered a prior-year recovery.

Prior-year recoveries generally occur as a result of incorrect analysis of a student's financial need or an error in disbursing funds.* Payments resulting from audit or program review liabilities should not be reported as prior-year recoveries; ED handles reporting in these situations.

If a school had prior-year recoveries, it must report them using the following procedures:

1. If a school received FWS funds from students in the award year of the FISAP that were disbursed in prior award years, the school enters the federal share next to the corresponding award year in Section F of the FISAP.

Reference:

- *Fiscal Operations Report and Application to Participate (FISAP) Instructions Booklet*

2. The school adjusts the award expenditures and administrative cost allowance for the year the award was made on the GAPS report.

All prior-year recoveries reported to ED will be deobligated from the appropriate awards.

Section G: Information About The Job Location and Development (JLD) Program

Schools that participate in the Job Location and Development (JLD) Program must use *Fields 20 - 23* of Section G to report JLD expenditures. If a school used any federal funds to operate a JLD Program, its institutional expenditures for JLD must be at least 20 percent of its total JLD expenditures.

Schools must also use this section to report the number of students for whom jobs were located or developed through the JLD Program.

Section H: Information About FWS Community Service Activities

Fields 24 - 26 of Section H are used to determine if a school has met the minimum 5 percent community-service expenditure requirement.* If an institution received supplemental FWS federal funds, this section is also used to determine whether an institution used supplemental funds to pay students in community-service jobs.

Section I: Information About FWS Reading Tutors of Children and Tutors in Family Literacy Programs

Fields 27 - 29 of Section I are used to report the following information for reading tutors of children and tutors in family literacy programs:**

- the number of students employed,
- federal share of earned compensation, and
- total earned compensation.

The information reported in this section can also be part of the information reported in Section H if the reading tutoring for children services were open and accessible to the community.

***For the 2000-01 award year and beyond, the minimum 5 percent requirement increases to 7 percent.**

****Section I has been adjusted to collect combined information on FWS reading tutors of children and tutors in family literacy programs.**

Part VI: Program Summary

Part VI contains two sections. Section A is used to identify a school's campus-based aid recipients by type of student and by income. Section B is used to calculate a school's administrative cost allowance (ACA).

Section A: Distribution of Program Recipients and Expenditures by Type of Student

If a school participated in one or more Title IV campus-based programs during the previous award year that ended June 30, it must complete Section A. The school will need data from Parts III, IV, and V of the FISAP, as well as from its own institutional records, to complete this section.

In *Fields 1-15* of Section A, a school reports the distribution of its campus-based aid recipients by type of student (undergraduate dependent, undergraduate independent, and graduate/professional). Within each "type," recipients are further broken down and reported on the basis of income level.

In this section, income is determined in the same manner as in Part II, Section H. This is the total of a student's and parents' or student's and spouse's taxable and nontaxable income used to calculate the student's Expected Family Contribution (EFC).

Students reported in Section A are both full-time and part-time students.

If a student falls into more than one category (undergraduate, graduate, dependent, independent), the student should be reported in the category in which the student was enrolled during the final term of the previous academic year, or the final month of the training program for institutions with a non-traditional calendar.

The unduplicated recipients column, Column G, is an unduplicated count of students in each income category.

In *Field 16*, the amount of funds reported is the total amount awarded and spent under each campus-based program and consists of both the federal and nonfederal shares.

In *Field 17*, schools must report the total number of less than full-time students. In *Field 18*, schools must report the total number of automatic zero EFC students.

Section B: Calculating Administrative Cost Allowance (ACA)

If a school claims an ACA for the previous award year, it must complete this section. In *Fields 1 - 23*, the school calculates its ACA and reports the amount of ACA claimed by the school. The ACA worksheet is provided for calculation purposes only; it should be retained in the school's files for audit and program review purposes and should not be returned to ED.

The amount of ACA a school may claim is calculated on the basis of the school's total campus-based program expenditures, as reported in Parts III, IV, and V of the FISAP. Schools may claim varying percentages of their expenditures as ACA according to the total amount of their program expenditures.

ACA may be charged against:

- cash on hand in a school's Federal Perkins Loan fund, if the school made Federal Perkins Loans to students during the award year;
- a school's FSEOG allocation, if the school disbursed FSEOG awards to students during the award year; *and/or*
- a school's FWS allocation, if the school paid FWS wages to students during the award year.

The total of all ACA for all programs may be charged to one campus-based program or any combination of the programs the school chooses.

However, for the Federal Perkins Loan Program or FWS Program, a school may not charge ACA against program funds if the school's only expenditure from that program was to transfer funds to another campus-based program.

Administrative Cost Allowance Worksheet (Worksheet must be retained for audit and program reviews)

Section B. Calculating the Administrative Cost Allowance

STEP 1 Calculate the amount spent in 1998-1999 on which the Administrative Cost Allowance is based:

1. Total compensation in FWS (amount from Part V, Section C, FIELD 11) \$ _____
2. Amount of Federal Perkins Loan funds advanced to students (amount from Part III, Section B, FIELD 5) + \$ _____
3. Total funds to FSEOG recipients (amount from Part IV, Section C, FIELD 8) + \$ _____
4. TOTAL Amount Spent (FIELDS 1 + 2 + 3) \$ _____

STEP 2 Calculate the Administrative Cost Allowance (Complete only ONE subsection):

Institutions whose total amount spent was \$2,750,000 OR LESS

5. Enter total amount spent (FIELD 4) \$ _____
6. Multiply x 0.05
7. TOTAL Administrative Cost Allowance \$ _____
(GO TO STEP 3)

Institutions whose total amount spent was MORE THAN \$2,750,000 but LESS THAN \$5,500,000

8. Enter total amount spent (FIELD 4) \$ N / A
9. Subtract - \$ 2,750,000
10. Expenditures over \$2,750,000 (FIELD 8 - FIELD 9) \$ N / A
11. Multiply x 0.04
12. Administrative Cost Allowance on expenditures over \$2,750,000 (FIELD 10 x FIELD 11) \$ N / A
13. Add Administrative Cost Allowance on expenditures of \$2,750,000 + \$ 137,500
14. TOTAL Administrative Cost Allowance (FIELD 12 + FIELD 13) \$ N / A
(GO TO STEP 3)

Institutions whose total amount spent was \$5,500,000 OR MORE

15. Enter total amount spent (FIELD 4) \$ N / A
16. Subtract - \$ 5,500,000
17. Expenditures over \$5,500,000 (FIELD 15 - FIELD 16) \$ N / A
18. Multiply x 0.03
19. Administrative Cost Allowance on expenditures over \$5,500,000 (FIELD 17 x FIELD 18) \$ N / A
20. Add Administrative Cost Allowance on expenditures of \$5,500,000 + \$ 247,500
21. TOTAL Administrative Cost Allowance (FIELD 19 + FIELD 20) \$ N / A
(GO TO STEP 3)

STEP 3 Decide how much Administrative Cost Allowance the Institution claimed:

22. How much Administrative Cost did the Institution claim (The amount may be the same or less than the amount calculated in Step 2) \$ _____
23. How much Administrative Cost did the Institution claim in each program?
 - a. Federal Perkins Loan (must be same as Part III, Sect. B, FIELD 5) \$ _____
 - b. FSEOG (must be the same as Part IV, Section D, FIELD 11) \$ _____
 - c. FWS (must be the same as Part V, Section D, FIELD 14) \$ _____

6.6 Adjusting Expenditures Reported to GAPS

Schools may make adjustments to reported expenditures on open or closed awards in GAPS. Such adjustments may occur as a result of a school:

- paying a refund to a Title IV account when a student has withdrawn from school;
- recovering funds directly from students (an overpayment to an eligible student or a payment to an ineligible student); *and*
- making a disbursement to a student who was underpaid in a previous payment period.

Adjustments resulting from audit or program review liabilities will be discussed later.

Open Awards (Current-Year and Prior-Year Adjustments)

If an award is open and is listed in GAPS, a school may make upward or downward adjustments by reporting the correct cumulative disbursements in GAPS for the reporting period in which the adjustment is made. If the adjustment is a recovery, the school repays funds (makes a downward adjustment) from its current year program account(s). If the adjustment is an expenditure, the school draws additional funds (makes an upward adjustment) from its current year program account(s).

An ED grant or program office may also initiate an adjustment to a school's reported disbursements on open awards. If a grant or program office reduces a school's award authorization amount to an amount that is less than the school's reported disbursement amount, the disbursement amount will be reduced to the revised authorization amount. The reduction will appear as a prior-period adjustment on the school's GAPS account.

For the Federal Pell Grant Program, adjustments made by September 30 of the calendar year in which the award year ends are considered to be current-year adjustments. Such adjustments will affect the school's Federal Pell Grant authorization, as reported on its Electronic Statement of Account (ESOA). This adjusted authorization will, in turn, be reflected on the school's GAPS account.

Closed Awards (Cancelled-Year Adjustments)

If an award is closed (no longer listed in GAPS) and a school needs to increase the amount of reported disbursements, the school must contact the grant or program office that issued the award and request an increase to the reported disbursement. If the grant or program office approves the increase,

the award will be reinstated and the net amount of the increased disbursement amount will be posted to the school's GAPS account. This action will appear as a prior-period adjustment and will reduce the school's cash-on-hand (COH) amount, if applicable.

If an award is closed and a school needs to reduce the amount of reported disbursements, the school must contact the grant or program office that issued the award and request a decrease to the reported disbursement. If the grant or program office approves the reduction, the net amount of the reduction will be posted to the school's GAPS account. This action will appear as a prior-period adjustment and will increase the school's COH amount; if applicable.

Reference:

- See Section 4.9 of this book—Closed Award (for Federal Pell Grant) for further information.
- DCL-P-98-3

Reference:

- DCL-P-98-3

For the Federal Pell Grant Program, decrease adjustments are both cancelled and closed for any award year that is more than five years old.

Once a debt to the Federal Pell Grant Program is established by a program review or audit, a school may not adjust its Federal Pell Grant expenditures in GAPS. ED deals directly with adjustments that must be made on the basis of a program review, audit, or court order.

Adjustments made as a result of overpayments to students must be reported directly to RFMS.

There may be isolated examples when the program office or an audit requires a school to make adjustments on closed awards from ED's previous payment system, the Payment Management System (known as ED/PMS). These adjustments occur when GAPS decreased the award, but the school has unreported expenditures. The school would make the adjustment through the applicable ED program office.

6.7 Audits and Program Reviews

Reference:

- *Student Financial Aid Handbook: Institutional Eligibility and Participation*
- 34 CFR 668 Subparts G and H

Case management teams in the Institutional Participation and Oversight Service (IPOS) oversee schools within their assigned areas, monitoring institutional Title IV compliance. Two of the tools available to the case teams are audits and program reviews, which help ensure that schools participating in Title IV programs follow correct procedures to award, disburse, and account for federal funds. These methods are also used to monitor schools' compliance with applicable laws and regulations, identify procedural problems, and recommend solutions.

Federal Audits (OIG)

A federal audit is initiated by ED and conducted by ED's Office of Inspector General (OIG). A school may be selected for a federal audit only

**Reference:**

- 34 CFR 668.23(a)(2)(c)(1)(2)(d)(1)(5)

***Further guidelines for schools under the HEA amendments of 1998 will be issued in final regulations.**

**Reference:**

- 34 CFR 668.23(a)(1)
- 34 CFR 668.23(b)(2)

**Reference:**

- 34 CFR 668.23(d)(1)

if there is concern about the school's administration of Title IV programs. A federal audit does not satisfy the requirement that a school must have an annual nonfederal audit.

Nonfederal Audits

The law requires that most schools participating in any federal student financial aid program must have an independent auditor conduct annually both a compliance audit and a financial audit. (Schools that receive less than \$200,000 in Title IV funds and provide ED with a letter of credit equal to at least one half of the school's potential Title IV program liability, as determined by ED, may be allowed to be audited every three years instead of annually.)* Third-party servicers also must have compliance audits. In addition, the third-party servicers must have financial audits if they enter into a contract with a lender or guaranty agency to administer any aspect of the lender's or agency's programs.

- An *independent auditor* is a public accountant or a government auditor who:
 - must be qualified under both generally accepted auditing standards and government auditing standards,
 - is free from personal and external impairments to independence,
 - is organizationally independent, *and*
 - maintains an independent attitude and appearance.
- A *compliance audit* assesses how well a school follows federal requirements for administering the federal student aid programs and must be conducted according to government auditing standards. Compliance audits are also according to either the SFA *Audit Guide* or the Office of Management and Budget (OMB) Circular A-133 Compliance Supplement.
- A *financial audit* assesses a school's financial statements. The financial statements must be prepared on an accrual basis according to generally accepted accounting principles (GAAP) and audited by an independent auditor according to generally accepted government auditing standards (GAGAS) and other applicable guidance contained in ED regulations and/or Office of Management and Budget (OMB) regulations.

Audit Deadlines

The compliance audit and audited financial statement must be submitted together as a single-audit reporting package. The deadline for a school or third-party servicer to submit its audit reporting package is no later than six months after the last day of the school's fiscal year, except as provided by the Single Audit Act.

Public and nonprofit schools that are subject to the Single Audit Act (Public Law 104-106) are governed by the deadlines specified in OMB Circular A-133. Audit reports under the Single Audit Act are due no later than nine months from the end of the fiscal year.

Failure to submit the audit reporting package by the deadline and in the manner specified may result in ED limiting, suspending, or terminating a school's participation in Title IV programs.

Method and Type of Audit

The method and the type of audit depends on who controls the school:

- *For-profit institutions* must have both a financial audit and a compliance audit. The compliance audit is to be conducted according to ED's *Audit Guide of Federal Student Financial Assistance Programs at Participating Institutions*. These institutions must also have a basic GAAP financial statement audit.* The financial statement audit must be performed according to generally accepted auditing standards and government auditing standards.
- *Public and nonprofit institutions* are audited under the Single Audit Act. The Single Audit Act requirements were implemented through OMB Circular A-133, "Audits of States, Local Governments, and Other Nonprofit Organizations." Entities subject to OMB Circular A-133 that expend less than \$300,000 in federal awards are exempt from audit requirements.

An audit must be performed by an independent auditor following generally accepted auditing standards and the standards of the U.S. General Accounting Office (GAO) as set forth in the GAO publication *Government Auditing Standards*. The auditor or auditing firm used for a compliance audit may be the same one used to audit a school's other fiscal activities. The auditor or firm must, however, be independent of any auditor or firm authorizing a school's expenditure of Title IV program funds. An audit conducted by a state auditor who meets the criteria for independence satisfies the nonfederal compliance-audit requirement.

A school must make all program, fiscal, and student records available to an auditor. Both the school's financial aid administrator and fiscal officer should be aware of the dates the auditor will be at the school.

Representatives from the business and financial aid offices should be on hand during this period to provide documents and answer questions.

At the end of the on-site review, the auditor holds an exit interview. During the exit interview, the auditor may suggest improvements in procedures, as well as give the school or servicer a chance to discuss the draft report and review any discrepancies cited in the report. The exit interview is a good time to resolve any disagreements or present any corrective action plans before the final audit report is prepared.

The final audit report is prepared by the auditor and submitted to the school.

Schools send A-133 audits, whether for nonprofit schools or for public schools under the Single Audit Act, to:

By regular mail: Federal Audit Clearinghouse
Bureau of the Census
P. O. Box 5000
Jeffersonville, IN 47199-5000

By overnight mail: Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132-5000

Schools send audits conducted using ED's *SFA Audit Guide* to:

By regular mail: U.S. Department of Education
Institutional Participation and Oversight Service
Data Management and Analysis Division
Document Receipt and Control Center
P. O. Box 44805
L'Enfant Plaza Station
Washington, DC 20026-4805

By overnight mail: U.S. Department of Education
Office of Student Financial Assistance Programs
Data Management and Analysis Division
Document Receipt and Control Center
7th and D Streets, SW
GSA Building, Room 3514
Washington, DC 20407

Corrective Action Plans (CAPs)

Regardless of the type of audit performed, if there are findings, a school must prepare a corrective action plan (CAP) that addresses the findings in the audit report. Schools must submit the CAP with their audit reports to the same just-listed addresses.

It is ED's responsibility, not the auditor's or audit firm's, to determine what action will be taken as a result of an audit report. ED officials review the audit report and the school's CAP to determine what action, if any, is necessary. ED may:

- agree with the auditor's findings,
- modify the auditor's recommendations, *or*
- request additional information from the school.

A school is required to cooperate fully during ED's examination of its audit report. The school must give ED and/or OIG access to any records or other documents needed to review the audit report. In addition, the school's contract with its auditor must specify that the auditor will also give ED and/or OIG access to records and documents related to the audit, including work papers. Access includes the right to:

- copy records (including computer records),
- examine computer programs and data, *and*
- interview employees without the presence of school officials and without the school's use of a tape recorder.

ED notifies the school in writing of its final determinations. As a result of ED's examination of a school's audit, the school may be required to:

- revise its administrative procedures;
- provide or reconstruct documentation to establish that expenditures were properly awarded and disbursed;
- implement corrective actions to prevent further improper expenditures of federal funds;
- repay improperly expended federal funds; *or*
- pay fines or interest or both.

**Reference:**

- 34 CFR 668.75(c)(1)(2)
- 34 CFR 668, Subparts F and G

If ED determines that Title IV program funds were expended improperly, the school must repay the funds within 45 days, unless the school has formally appealed the decision.

In addition, if ED determines that Title IV program funds were expended improperly, ED may:

- take emergency action to withhold the school's Title IV funds,
- fine the school up to \$25,000 for each statutory or regulatory violation, *or*
- limit, suspend, or terminate the school's eligibility to participate in Title IV programs.

Such actions may be taken by ED if:

- the school is unable or unwilling to provide access to its records;
- there is sufficient evidence that federal funds were intentionally misused or fraudulently expended;
- ED has evidence indicating that the school is incapable of administering Title IV programs; *or*
- the school is unable or unwilling to repay improperly expended federal funds.

Audits for Foreign Schools

Foreign schools must also submit annual compliance and financial audits. Because financial responsibility requirements vary for foreign schools based on the amount of federal student financial aid funds a school receives, the requirements for preparing the financial statement also vary.

- A school that received less than \$500,000 (in U.S. dollars) in Title IV funds during its most recently completed fiscal year may have its financial audit prepared according to the standards of the school's home country.
- A school that received \$500,000 (in U.S. dollars) or more in Title IV funds during its most recently completed fiscal year may have its financial audit translated and presented for analysis under GAAP and GAGAS.

Audits for Third-Party Servicers

A third-party servicer must submit an annual compliance audit. If a third-party servicer contracts with several schools, a single compliance audit can be performed that covers all its administrative services for each school. A third-party servicer must submit its compliance audit within six months after the last day of the third-party servicer's fiscal year. ED may require a servicer to provide a copy of its compliance audit report to guaranty agencies, lenders, state agencies, the U.S. Department of Veterans Affairs, and/or accrediting agencies.

A third-party servicer is not required to submit a separate annual compliance audit if:

- it contracts with only one school *and*
- the school's audit covers every aspect of the servicer's administration of that school's programs.

A school may never use a third-party servicer's audit in place of its own required audit. The school is ultimately liable for its own violations as well as any incurred by its third-party servicers.

In addition to submitting a compliance audit, a third-party servicer must, on an annual basis, submit an audited financial statement when it enters into a contract with a lender or guaranty agency to administer any aspect of the lender's or guaranty agency's programs. This financial statement must be prepared on an accrual basis according to GAAP, audited by an independent auditor according to GAGAS, and follow any other guidance contained in audit guides issued by ED.

Program Reviews

In addition to reviewing schools' compliance-audit reports, ED may conduct its own program reviews. One purpose of a program review is similar to that of a compliance audit—to evaluate a school's management of Title IV programs and to ensure compliance with laws and regulations.

For program reviews, ED must:

- establish uniform guidelines;
- make guidelines and procedures available;
- permit institutions to cure errors if there is no evidence of fraud or misconduct;

(Note: The 1994 *Program Review Guide* is the most recent edition available.)

- base penalties on the gravity of the violation; *and*
- inform state and accrediting agencies of any action taken against an institution.

In selecting schools for review, ED gives priority to schools with:

- a Federal Family Education Loan (FFEL) Program cohort default rate greater than 25 percent; *or*
- a significant fluctuation in FFEL, Direct Loan Program, or Federal Pell Grant Program volume; *or*
- problems reported by an accrediting agency or a state agency.

Schools are typically notified of an upcoming program review in advance, but ED reserves the right to conduct an unannounced program review. Federal regulations stipulate that ED officials provide a school with a written request for a program review, but regulations do not preclude ED from providing the written request at the same time reviewers arrive at the school.

School personnel must cooperate fully with ED officials before, during, and after a program review. Whether the program review is announced or unannounced, a school is expected to have its records organized and readily available for reviewers, and the school must provide access to its records.* However, because certain school officials might not be immediately available during an unannounced program review, a school may be allowed additional time to submit requested information/responses to review findings.

*The Family Education Rights and Privacy Act (FERPA) regulations do not apply in those cases.

Focus of Program Reviews

A program review covers many of the same areas as an audit, including fiscal operations and accounting procedures, as well as a school's compliance with specific Title IV program requirements for student eligibility and awards. Program reviews, however, tend to focus more on regulatory requirements specific to Title IV programs, such as:

- student eligibility records and admission records,
- fund requests and transfers,
- records pertaining to due diligence and collecting Federal Perkins Loans,
- time sheets and pay rates for the Federal Work-Study (FWS) Program, *and*

- documents supporting a school's Federal Pell Grant and campus-based program reporting.

The program review team prepares a written report and sends it to a school within 30 to 60 days of the review. The school is expected to respond to the report to provide additional information or if it disagrees with any of the report's conclusions. When ED has fully considered and evaluated the school's response, ED sends the final program review determination (FPRD) letter to the school.

Like an audit, a program review may result in noncompliance findings or in monetary liabilities for a school.

Some common reasons for noncompliance findings include:

- unmet consumer-information requirements,
- excessive student drop-out or withdrawal rates,
- undocumented entrance and exit loan counseling interviews,
- inadequate notification to FFEL Program borrowers about refunds made to lenders,
- excessive Federal Perkins Loan Program cohort default rates, *and*
- improperly maintained satisfactory academic progress records.

Some common reasons for monetary liabilities include:

- incomplete or undocumented verification procedures,
- inadequately established or monitored satisfactory academic progress standards,
- late refunds or unmade refunds,
- excess cash on hand from Title IV programs,
- inconsistent information in student files,
- inadequately maintained accounting records,
- improperly constructed student budgets,
- ineligible programs or locations,
- an undocumented FISAP income grid,
- failure to exercise due diligence in collecting Federal Perkins Loans,

**Reference:**

- 34 CFR 668 Subparts G and H

- records not being maintained as required, *and*
- audit reports not being submitted.

As a result of program review findings and/or audit findings, ED may take emergency action against a school; fine a school for statutory and regulatory violations; or limit, suspend, or terminate a school's participation in Title IV programs. A school may appeal program-review findings and audit findings.

6.8 Repayment of Liabilities from an Audit or Program Review

**Reference:**

- *Student Financial Aid Handbook: Institutional Eligibility and Participation*
- 34 CFR 668.23(g)

An audit or program review may result in liabilities under any of the Title IV programs for a current award year or for prior award years. Such liabilities are reported to a school by ED in a Final Program Review Determination (FPRD) letter or a Final Audit Determination Letter (FADL). If the FPRD or FADL states that the school owes funds to ED, it will give specific steps that the school must take to reimburse ED for improperly spent funds. The institution should carefully follow the instructions in the FPRD or FADL for reimbursing these funds.

If a school owes payments to ED, a copy of its FPRD or FADL is also sent to the Receivables and Cash Receipt Team (RCRT) in ED's Financial Services (FS), where an account receivable is established for the school. A school is also billed for the disallowed amount of funds, accrued interest, and penalties through ED's billing agent. Payment instructions are included with the bill.

**Reference:**

- *GAPS Payee Guide*

If a school owes ED \$100,000 or more, it must remit payment through its financial institution by FEDWIRE. If a school owes ED less than \$100,000, it must remit payment by check to ED's billing agent.

A school may not reduce amounts reported as expended in GAPS to account for expenditures disallowed as a result of an audit or program review. Any Title IV funds returned for this purpose will not be credited to a school's GAPS account and will not reduce the school's cash-on-hand amount in GAPS. Unless otherwise directed by the FPRD or FADL, a school may not attempt to adjust its prior year FISAPs or Federal Pell Grant processed payment information to reflect expenditures disallowed as a result of an audit or program review, nor may it make repayments directly to any Federal Family Education Loan (FFEL) Program lender or to the Direct Loan Servicing Center.

If a school does not return funds owed ED as a result of an audit or program review, any of the following penalties may occur:

- The school may be assessed penalty and administrative charges, as well as accrued interest on any unpaid balance.
- The school may be referred to a commercial collection agency and charged the agency's collection costs.
- The school may be referred to the U.S. Department of Justice for collection and legal action.
- The school may be referred to other government agencies from which it receives funds for administrative offsets.
- The school may be reported to credit bureaus.

6.9 Guaranty Agency Reviews

Guaranty agencies are required to conduct program reviews at postsecondary schools that participate in the FFEL Program. A guaranty agency must conduct biennial (once every two years) on-site reviews at the ten schools with the highest loan volume through that agency, as well as at any school whose loan volume is 2 percent or more of the guaranty agency's total loan volume. A guaranty agency is also required to conduct biennial program reviews of schools in its state that have a default rate of more than 40 percent as well as any schools with a default rate of more than 20 percent if ED notifies the agency that the school does not have a default reduction plan. A program review conducted by a guaranty agency is similar to ED's program review. However, the guaranty agency's review focuses on how the school meets FFEL-specific requirements, such as:

- certifying the loan application,
- maintaining records supporting a student's loan eligibility,
- processing procedures and paying loan monies, *and*
- informing lenders when a student changes enrollment status.

Two copies of the guaranty agency's report are forwarded to ED, as is the school's payment if liabilities were assessed.
